

ARE YOU PASSIONATE ABOUT WEB DEV?

DO YOU ENJOY PASSING ON YOUR KNOWLEDGE TO OTHERS?

ARE YOU KEEN TO INTERACT WITH OTHERS?

CHALLENGES ARE A STRONG MOTIVATOR?

A NEW ADVENTURE SPEAKS TO YOU?

Then you might be the person we are looking for:

WEB DEVELOPMENT TRAINER (60% - 80%) for our new Zürich based programme

The training approach used by Opportunity comprises the following key concepts:

An **Opportunity** trained developer is above all a good practitioner who has expert knowledge of Internet culture with the technical capabilities expected in the sector. They are able to update their skills, work in a team and solve complex problems.

The way we ensure that the trainees become good developers is through:

- **ACTIVE LEARNING:** practical exercises, projects, collaborative learning, peer-to-peer, etc.
- **A MULTI-DISCIPLINARY TEAM:** The expert instructor, technical experts, a coach and a jobcoach.
- **THE COMPANY AT THE HEART OF THE JOURNEY:** company involvement in the programme with activities such as reversed interaction, immersion periods, interview simulation, job dating or meetups, etc.

As a trainer:

Your primary duty will be to ensure the smooth running of the Web Development training programme by accompanying a class of 20 to 25 trainees in their daily activities (along with two other trainers).

- establishing a schedule for the training course according to the defined content, in conjunction with the lead trainer
- participating in the recruitment of the trainees within the cohort
- identifying, in conjunction with the rest of the team, the digital and educational actors that could get involved throughout the training course

The second part of your role will be to ensure the smooth running of the training and to accompany the cohort on a daily basis by:

- mobilizing innovative andragogical techniques
- supervising the advancement of the trainees
- encouraging meetings between the trainees and the community of people working in the digital world, particularly through integrating it within the curriculum (i.e. scheduling meetups, participation in local events, etc.)
- accompanying the cohort in carrying out the tasks and work given to them
- participating in andragogical meetings between réalise and Zurich Opportunity
- regularly raising issues on the training and the cohort
